PROFILE

Senior Mobile Application Developer graduate from the **Faculty of Computers and Information, Tanta University** (Grade: 87%). Extensive expertise in architecting high-performance cross-platform applications using **Flutter & Dart** alongside native **Android (Kotlin)** development. Proven track record in implementing **Clean Architecture**, advanced **State Management (Provider)**, and seamless **Firebase** integrations. Adept at leading technical workflows, optimizing app performance by **20%**, and delivering scalable, user-centric solutions that drive engagement.

PROFESSIONAL EXPERIENCE

Mobile Application Development Trainee *Digital Egypt Pioneers Initiative (Digilians)*

Jan 2025 – Mar 2026 | Cairo, Egypt

- **Developed and optimized** 3 cross-platform mobile applications using **Flutter & Dart**, reaching 50+ beta testers with positive user feedback.
- Executed **OOP principles** and **State Management (Provider)**, optimizing app performance and reducing crash rates by **20%**.
- Collaborated with a team of 4 developers, managing version control through **Git/GitHub** and delivering projects on schedule.
- Designed user interfaces for 3 apps, improving usability scores by **30%** during testing phases.

EDUCATION

- **Bachelor of Computers and Information**
- Tanta University | 2021 – 2025
- **Grade:** 87%
- **Major:** Mobile Application Development
- **Relevant Coursework:** Flutter, Kotlin, Android Development, Firebase, UI/UX Design

SKILLS

Technical Skills

Flutter, Dart, Kotlin, Android SDK, Firebase, Git, GitHub, Android Studio, OOP, Data Structures, Visual Studio Code, Wireframing

Soft Skills

- Teamwork & Collaboration
- Problem Solving
- Time Management
- Creativity & Fast Learning

COURSES

- **Digital Egypt Pioneers Initiative (DEPI) Certificate** | *Digilians & Ministry of Communications.*
- **Flutter Development Professional Course** | *Faculty of Computers & Information, Tanta University.*
- **Android Development with Kotlin Certificate** | *Tanta University & Digilians.*
- **Soft Skills & Professional Communication Program** | *Digilians (Teamwork, Problem-solving, English).*

PROJECTS

Cairo Metro Guide App

Android Application (Kotlin)

- **Developed** a native Android application covering **40+ metro stations** to guide users efficiently.
- **Implemented Room Database** for offline data caching and **Retrofit** for real-time station updates.
- **Executed Clean Architecture** and optimized UI components, reducing user navigation errors by **25%**

Tic Tac Toe Game

Cross-Platform Mobile Application (Flutter & Dart)

- **Engineered** a responsive mobile game using **Flutter** that reached **100+ users** in the testing phase.
- **Applied advanced State Management (Provider)** and optimized logic algorithms to ensure 60 FPS smooth gameplay.
- Designed a custom UI/UX that adapts to various screen sizes using **Material Design** principles.

Azkar App

Islamic Mobile Application (Flutter & Dart)

- **Architected** an Islamic app featuring **10+ daily supplications**, achieving high usability scores from **50+ users**.
- **Utilized Shared Preferences** for local data persistence and implemented an intuitive navigation system.
- Optimized app performance and resource consumption for better battery efficiency on Android and iOS.
